Since 1972, Giddens School has held an unyielding commitment to social justice and equity as a central guide to our work with children. We believe the best learning happens in a diverse, inclusive, and caring school environment. We care deeply about equity and authentically nurturing a diverse community. As a school community, we have the foundation to push ourselves forward and engage justice and equity within and beyond the school walls.

At Giddens School, it's our mission to develop academically and emotionally confident children who will advocate for themselves and others. We prepare them to meet the challenges and seize the opportunities to make a difference in the real world. Our extraordinarily independent school helps students to discover themselves and become who they can be.

Our educators know that developing a moral compass is as powerful as building a strong academic foundation. We educate the whole child by innovatively integrating emotional learning, academics, and social justice perspectives to help students become engaged, connected, and empowered to contribute and participate.

The years ahead present Giddens School with exciting and challenging strategic initiatives. The interim Assistant will collaborate closely with the Head of School and the as we care for, cultivate and challenge Giddens to recognize its strengths and develop its potential.
